ABSTRACT

This report comprises the responses of the constituent institutions of the State University of New York (SUNY) to the library questionnaires of the Education Division of the United States Department of Health, Education and Welfare and the New York State Education Department, for Fall 1980, Fall 1981, Fall 1982, and Fall 1983. Included in the statistical tables are data on library collections, staff, operating expenditures, and loan transactions for each institution. Fall 1982 data on developmental areas and mean salary of full-time library staff are included. Additional summary tables include available trend data for Fall 1980 through Fall 1983. In order that the statistical data may be reviewed in relation to user demand for the library services, enrollments for each college and university are provided for the years surveyed. Introductory materials provide definitions of terms, and appendices include a map showing locations of SUNY institutions and a publications list of the Central Staff Office of Institutional Research. PREFACE

This report consists of the responses of the constituent institutions of the State University of New York to the library questionnaires of the Education Division of the U.S. Department of Health, Education and Welfare and the New York State Education Department, for Fall 1980, Fall 1981, Fall 1982, and Fall 1983.

The report includes detailed data on Library Collection, Library Staff, Library Operating Expenditures, Developmental Areas: Library Loans, Transactions and Hours, and Mean Salary of Full-time Library Staff for Fall 1982. Additional summary tables are presented which include available trend data for Fall 1980 through Fall 1983.

In order that these data may be viewed in relation to user demand for library services, the enrollments for Fall 1980, Fall 1981, Fall 1982, and Fall 1983 are provided. Similar data concerning Academic Library Statistics were published earlier for 1967 through 1970, Fall 1972, and Fall 1975 and Fall 1976 and Fall 1977, and Fall 1978 and Fall 1979. These reports are available at all State University of New York libraries (see Publications List, page 111).

The publication of this report could not have been accomplished without the full cooperation of the individual campus library and institutional research personnel. We appreciate the cooperation and effort that went into providing these data. We would also like to ackrowledge the efforts of our statistical staff, Roy Spoor, Evelyn Smith and Susan Bossoni; and our secretarial staff, Carol Hart, Joëlle Lydon, Peg Rings and Vikki Mazzone for their invaluable assistance in proofing, typing and distributing this publication.

INTRODUCTION

This report consists of data from the Fall 1980, Fall 1981, Fall 1982, and Fall 1983 questionnaires. The reader is cautioned against making any specific inter-institutional comparisons. Concise and uniform collections of these data are still in the process of development on both the state and federal levels.

Definitions of Terms[a]

Included below are some of the terms used in this report. The definitions are derived from those given on the survey instruments.

Academic Library - an organized collection of printed, microform, and audiovisual materials which; is administered as one or more units, is located in one or more designated places and makes materials (printed, microform, audiovisual) necessary equipment and services of its staff accessible to the college community.

Librarians - staff members who perform work that requires professional training and skill in the theoretical and / or scientific aspect of library work, as distinct from the mechanical or clerical aspects.

Other Professional Staff - staff members who, though not librarians, are in positions normally requiring at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, media specialists, etc.).

Developmental Areas - includes information on circulation of materials to users, reference and directional contacts between staff and users of the library and hours and days of operation. (This section represents a relatively new data collection focus on utilization of materials, services and facilities. The reader of this report is advised to examine this data well before forming any conclusions).

Circulation to users - the number of transactions of all materials charged out to library users by members of the library staff.

Interlibrary loans - the number of items provided to and received from other libraries or library agencies in response to a request.

Reference transaction - informational contact per typical week that involves the use, recommendation, interpretation or instruction in the use of one or more information sources or knowledge of sources by members of the library staff.

[a]All definitions are excerpted from: Department of Health, Education and Welfare, Higher Education General Information Survey (HEGIS), College and Universities Libraries, Fall 1982.

Organization of this Report

PART ONE

This section of the report contains data reported on the Fall 1980 surveys. Tables in this section include data in: library collections, full-time and part-time staff, operating expenditures, loan transactions and the official credit course enrollment for Fall 1980. Data are arranged by institutions.

PART TWO

This section of the report contains data reported on the Fall 1981 surveys. Tables in this section include data in: library collections, full-time and part-time staff, operating expenditures, loan transactions and the official credit course enrollment for Fall 1981. Data are arranged by institutions.

PART THREE

This section of the report contains data reported on the Fall 1982 surveys. Tables in this section include data on: library collection, additions to the collection, full-time and part-time staff, operating expenditures, developmental areas, mean salary of full-time staff and the official credit course enrollment for fall 1982. Data are arranged by institution and/or type of institution.

PART FOUR

This section of the report contains data reported on the Fall 1983 surveys. Tables in this section include data in: library collections, full-time and part-time staff, operating expenditures, loan transactions and the official credit course enrollment for Fall 1983. Data are arranged by institutions.

PART FIVE

This section of the report contains five tables of trend data. Data from the years 1979-80 through 1982-83 are included in this section. (Data in certain categories, such as full-time and part-time staff, and library expenditures are reported in the aggregate in this section for purposes of comparison). Although there have been increases reported in total library operating expenditures from 1979-80 through 1982-83, the effects of rising inflation have been felt strongly in the libraries of the State University of New York as evidenced by the reported decreases in personnel.

[a] Integrated into regular collection.

[b] Includes 9,806 bound periodicals.

[c] Data are aggregated for the multiple locations of this campus.

[d] This figure is a result of an inventory adjustment subtraction 3,061 book volumes.

[e] Campus completed a major inventory this year and discarded many outdated items; therefore they show a net loss in holdings for the year despite the addition of 1,829 volumes.

* These totals are reported as of the Fall 1980 semester.

[a] These totals are reported as of the Fall 1981 semester.

[b] Please note that several institutions did not report data in several categories, but rather listed the data as (N/A) not available.

[c] Adjusted figure - previous reporting inadvertantly included periodicals which are cataloged, but not classified. Inventory and conversion of cataloging records to OCLC also revealed some missing books, further reducing the number of volumes in the collection.

[d] All are accessible through the card catalog and are included in book stock.

[f] Includes Geneva Experiment Station.

[a]The CCFL Library and AV services are now integrated — staff, budget, administration.

[b]Data are aggregated for the multiple locations of this campus.

[c]Reflects two librarians changing from 12 months to 200 days.

[d]These figures incorporate AV expenditures including one professional salary, all software, supplies and film rentals; although in reality these items are not charged to the library's budget, but to day instruction. (AV services, however, are administered by the library)

[e]Not maintained as a separate figure.

[f]Less than $500.

[a]The figure 6,384 represents 1,846 sheets of microfiche plus 4,538 reels of microfilm. This is due to the splicing of reels together to save space in cabinets. Although there are fewer "physical" reels, the number of years, or volumes of periodicals on microfilm has increased over last year.

[b]Data are aggregated for the multiple locations of this campus.

[c]Figure does not reflect the number of new titles added because volumes were weeded out and the acquisition numbers reused.

[d]Prior to 1983, 833 books were weeded out of the collection - the decrease in bookstock reflects that sorting.

[a]Please note that several institutions did not report data in several categories but rather listed the data as (N/A) not available.

[b]Included with bookstock.

[c]Adjusted figure - previous reporting inadvertently included periodicals which are catalogued, but not classified. Inventory and conversion on cataloguing records to OCLC also revealed some missing books, further reducing the number of volumes in the collection.

[d]All are accessible through the card catalog and are included in the bookstock.

[e]Current periodical subscriptions only. All other serials are classified with the main collection.

[f]Major difference between numbers previously reported is due to complete and accurate recount.

[g]No longer adding to this collection.

[h]Includes Geneva Experiment station.

[i]Integrated into regular collection.

[j]Includes 9,806 bound periodicals.

[k]Data are aggregated for multiple locations of this campus.

[l]This figure is the result of an inventory adjustment subtraction of 3,061 book volumes.

[m]Campus completed a major inventory this year and discarded many outdated items; therefore they show a net loss in holdings for the year despite the addition on 1,829 volumes.

[n]Also 86,130 titles in Eric Documents.

[o]Data not kept on non-periodical serial subscriptions.

[p]Included with bookstock.

[q]Documents are either catalogued and counted as books or not catalogued and added to the Vertical file.

[r]Figure does not reflect the number of new titles added because volumes were weeded out and the acquisition numbers reused.

[s]Prior to 1983, 833 books were weeded out of the collection - the decrease in bookstock reflects that sorting.

()Estimated data.

FOOTNOTES

[a] The total expenditures reported for each institution may not equal the sum of the individual categories due to rounding of expenditures to the nearest thousand dollars.

[b] Includes expenditures for books, periodicals, microforms and audiovisual materials.

[c] Please note that several institutions did not report data in several categories but rather listed the data as (N/A) not available.

[d] Fringe benefits are not part of the library operating budgets, the data reported here are estimated.

[e] Excludes part-time employees on temporary service budget, such as: OCLC conversion project.

[f] Includes Geneva Experiment Station.

[g] Includes $11,047 for security system.

[h] The CCFL Library and AV services are not integrated - staff, budget, administration.

[i] Data are aggregated for multiple locations of this campus.

[j] AV materials fall under separate purchasing budget.

[k] Some audiovisual expenditures included here, though administered by the library, are not included in that section of the college budget.

[l] $51,539 of this figure are employees who are receiving temporary wages and who are not eligible for fringe benefits.

[m] Budget allocation figure for 1980-81, includes $28,000 supplemental funds for retrospective conversion. Does not include recharges of $37,830.

[n] Includes $16,000 from retrospective conversion funds.

[o] Library materials expenditures include all state-funds, grant funds, IFR's and other funds used to buy library materials.

[p] Includes $15,800 in temporary clerical assistance (non-student).

[q] Includes $25,039 of student wages paid by the Federal College Work Study Program.

[r] Includes $20,861 in temporary (non-student) wages and approximately $36,705 in grant funding.

[s] Includes $17,572 of student wages paid by the Federal College Work Study Program.

[t] Includes $889 of student wages paid by the Federal College Work Study Program.

[u] Work Study students.

[v] Includes $4,400 in Federal Grants

[w] Reflects two librarians changing from 12 months to 200 days.

[x] These figures incorporate AV expenditures including one professional salary, all software supplies and film rentals; although in reality these items are not charged to the libraries budget, but to day instruction. (AV services, however are administered by the library)

[y] Includes $25,621 for equipment from General Campus Fund.

[z] Operating budget includes N.Y.S. Coordinated collection Development Funds, IFR Funds, Research and Endowment Funds. Carry over-charges were not included.

[aa] Less than $500.

[bb] Figure includes $6,983 of Federal and State Grants.

[cc] The Library Resources Center has two budgets, one is library and one is Media (AV). A portion of the amounts indicated are not in the library budget, but rather are in the media budget of the Library Resources Center.
